

Science Laboratory Policy

Preamble

The Science laboratory keeps very expensive and dangerous scientific chemicals and objects. It is therefore imperative to note that the Science laboratory needs extra-care as compared to all other centers.

The following measures will always be followed in the Science Laboratory/lessons:

- The Laboratory shall always be locked when not in use
- All sorts of mess shall be cleaned immediately after usage of the Laboratory
- Educators shall always accompany learners visiting the Laboratory. Under no circumstance shall learners be allowed to be in the Laboratory without the educator.
- Educators sending their learners to the science lab must accompany them
- Educators shall arrange with the Laboratory a day before the visit
- Educators are to order materials as needed either at the beginning of the school yearly or by the beginning of each term via the DP.
- The procurement department is responsible of obtaining needed material per the school budget
- Learners shall perform experiments under strict supervision of the educator
- Any form of injury should be reported immediately to the office of the Nurse /Principal via an incident form.
- No label (either on the apparatus or Cupboards) shall be removed
- No rehearsal of any kind in the Laboratory
- Primary level labs experiments can take place in classroom with DP permission
- No chemicals, apparatus etc should be taken to classrooms unless prior permission from the DP is given.
- A Laboratory Time table shall be developed to ensure one lesson in the lab a week
- The Laboratory Time table shall be observed by all science educators.
- Touching and/or tasting chemicals is strictly prohibited
- All apparatus including scales and microscope shall only be utilized in the Laboratory under strict supervision of an educator.

EDISON

أكاديمية إديسون الدولية

Empowering students to learn for life and strive for excellence so that they can contribute positively to the global society

تمكين الطلاب من التعلم مدى الحياة والسعي لتحقيق التميز حتى يتمكنوا من المساهمة بشكل إيجابي في المجتمع العالمي

- Some chemicals may be dangerous so opening chemical bottles must only be done by the teacher after thorough reading of directions and instructions for use.
- Movement should be minimized in the Laboratory
- Broken articles should not be touched by any learner.
- The teacher in charge of the period shall carry full responsibility of anything happening to learners in the Laboratory.

Usage:

- Science Laboratory equipment are provided for use by current students and staff of EIA-DH only
- They are not to be used for recreational purposes.

Science Laboratory Rules

- Educators sending their learners to the computer lab must accompany them
- Only Learners registered at EIA-DH School shall gain access to the Science Laboratory.

Please see the additional Science labs rules.
